

Nettle Swarm Switzerland's Fiber Future

NETTLE SWARM

Locally rooted- globally scalable.
Ready to partner and expand across Europe

Reduces risk for brands, mills, and farmers:

Weather-independent and local supply is more secure for industry, and nettle is an easy, resilient crop for farmers.

Cuts emissions for everyone:

Shorter transport, sustainable farming, and clean processing meets new regulation

Close the material loop:

circular products, no waste – use whole plant, full traceability from plant to product.

Expand with sustainable growth:

Nettle fiber GreenHubs can expand using a fiber rooted in the region, compiling with EU regulations

Team: Cornelia Bamert, Luca Cereghetti, Maedeh ASA; Usharani Sreenivasan
